Terms Of Service

Effective Date July 2026

Document Version 1.0

Applicable to all users of the RedMed application and associated passive NFC medical bracelet

IMPORTANT NOTICE

RedMed provides general, publicly available first-aid information. It is not medical advice, not a medical device, and not a substitute for calling emergency services or obtaining professional medical care. In any life-threatening situation, call 911 (or your local emergency number) first.

These Terms Of Service (“Terms”) govern access to and use of the RedMed mobile and web application (the “App”), including any associated passive NFC medical bracelet hardware programmed through the App.

By downloading, installing, accessing, or using the App — whether as the person who creates a medical profile or as any person who views an emergency card via NFC tap or shared link — you acknowledge that you have read, understood, and agree to be bound by these Terms and our [Privacy Policy](#), which is incorporated herein by reference. If you do not agree, do not use the App.

1. Description of Service

RedMed operates **no servers** for storage of your medical profile. The App enables you to enter emergency medical information on your device

and program that information onto a passive NFC bracelet chip. After setup, a smartphone that taps the chip may read your emergency card in its web browser without installing the App. Optional in-app features, including Basic Aid and Find 911, operate locally on your device only while the App is open.

2. Acceptable Use

You agree that your medical profile remains on your device and, if you choose, on your bracelet chip. RedMed does not collect, host, or synchronize that profile data. You are solely responsible for the accuracy, completeness, and timeliness of information you enter and for updating or reprogramming your bracelet when your information changes.

3. Location Services (Find 911)

By using the Find 911 feature, you consent to emergency location processing on that screen only. **RedMed does not display its own in-app location-permission dialog.** The App may access device location and compass heading **only while the Find 911 screen is visible**, solely to display coordinates you may relay to emergency services.

Location is supplied by your browser or operating system using GPS/GNSS (satellite positioning), Wi-Fi, and cellular signals as available. Your platform may present a one-time system location prompt; this is not a separate RedMed permission screen. Location use is not advertising tracking, not background monitoring, and not used for any purpose other than emergency display on that screen.

RedMed has no servers. Location is processed on your device only. We do not receive, log, or retain your coordinates. Location collection ceases when you leave Find 911 or close the App. RedMed is **not** Apple Emergency SOS via satellite, Android Satellite SOS, or any carrier satellite messaging service.

4. No Medical Advice

All first-aid, CPR, and emergency-response content in the App is general public information, similar in nature to materials published by recognized public-health organizations. Such content is provided for informational and educational purposes only. It is not personalized medical advice, has not been reviewed by a physician for your specific circumstances, and does not create a physician-patient or other professional relationship.

5. Emergency Services Priority

The App is intended to assist until professional help arrives. It does not replace emergency medical services. Nothing in the App should delay or discourage you from calling 911 or your local emergency number in a life-threatening situation.

6. Self-Reported Medical Information

Medical profile data (including allergies, medications, conditions, and blood type) is self-reported by the profile owner and is not verified by RedMed. We make no representation that such information is accurate, current, or complete. First responders, bystanders, and other users should independently verify critical information where possible and exercise professional judgment.

7. Good Samaritan Laws

Many jurisdictions provide limited legal protection to persons who, in good faith and without compensation, render emergency assistance. This reference is general information only and is not legal advice.

RedMed does not warrant that any action taken using the App will qualify for protection under any statute; applicability depends on the facts and governing law where you are located.

8. Disclaimer of Warranties

THE APP IS PROVIDED “AS IS” AND “AS AVAILABLE,” WITHOUT WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, OR NON-INFRINGEMENT. WE DO NOT WARRANT THAT THE APP WILL BE UNINTERRUPTED, ERROR-FREE, OR THAT GPS, NFC, COMPASS, OR OTHER DEVICE FEATURES WILL FUNCTION CORRECTLY IN EVERY SITUATION OR ON EVERY DEVICE.

9. Assumption of Risk

Rendering first aid, CPR, or other emergency assistance carries inherent risk. By using emergency guidance in the App, you voluntarily assume those risks.

10. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, REDMED SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, OR ANY LOSS OF LIFE, PERSONAL INJURY, OR PROPERTY DAMAGE, ARISING FROM OR RELATED TO YOUR USE OF, OR INABILITY TO USE, THE APP OR ANY INFORMATION IT PROVIDES — INCLUDING WHERE INFORMATION IS INCOMPLETE, INACCURATE, OR OUTDATED, OR WHERE A DEVICE FEATURE DOES NOT OPERATE AS EXPECTED IN AN EMERGENCY. THIS LIMITATION APPLIES REGARDLESS OF THE LEGAL THEORY ASSERTED. SOME JURISDICTIONS DO NOT ALLOW CERTAIN LIMITATIONS; IN THOSE JURISDICTIONS, OUR LIABILITY IS LIMITED TO THE FULLEST EXTENT PERMITTED BY LAW.

11. Indemnification

You agree to indemnify, defend, and hold harmless RedMed from any claim, loss, liability, damage, or expense (including reasonable attorneys’ fees) arising from your use of the App, your violation of these Terms, or content you submit to your profile.

12. Eligibility

You must have legal capacity to enter a binding contract to create a profile. If you use the App on behalf of a minor or dependent, you represent that you are authorized to do so.

13. Physical NFC Bracelets and Merchandise

If you purchase a physical NFC bracelet or related merchandise from an authorized seller, you acknowledge that:

- Medical information is stored on a **passive NFC chip** (no battery, no broadcast) and may be read by any smartphone that taps the bracelet — by design, for emergency access.
- Data on the chip is **not encrypted** by the App unless you employ separate measures outside the App.
- The bracelet and App are **not medical devices** under FDA or comparable regulatory frameworks and do not verify profile accuracy.
- You are responsible for keeping chip contents current.
- Shipping, returns, and replacement terms for hardware are as stated at the point of purchase.

14. Modifications

We may revise these Terms from time to time. The Effective Date above will reflect the most recent revision. Continued use of the App after posting of revised Terms constitutes acceptance of the revision.

15. Governing Law

These Terms are governed by the laws applicable where you use the App, without regard to conflict-of-law principles, except where mandatory consumer-protection rules in your jurisdiction provide otherwise.

16. Severability

If any provision of these Terms is held invalid or unenforceable, the remaining provisions shall continue in full force and effect.

17. Contact

Questions about these Terms can be directed to help.RedMed@gmail.com or by phone at [\(732\) 630-7714](tel:(732)630-7714).
